Activity Settings	The everyday family and community experiences, events, and situations that provide learning opportunities for children and have development-enhancing (or development-impeding) qualities and consequences. Examples of family activity settings may include bath time, eating, and play activities. Community activity settings may include childcare, playground, and swimming.	
Agency for Health Care Administration	The entity responsible for administration of Florida’s Medicaid program and the lead agency designated to oversee payments for medical assistance and related services under Title XIX of the Social Security Act.	
Amplification	A hearing instrument worn by a person with diagnosed hearing loss that make sounds louder. Hearing instruments (hearing aids) are set specifically for individual hearing losses and couple to ears by custom-made ear molds. Analog or linear, programmable, and digital hearing instruments may be appropriate.	
Annual Review Evaluation of the IFSP	A face-to-face annual review of a child's development in all domains, including review of existing evaluations and assessments from community providers and a determination of continuing eligibility. The IFSP team will review the success and appropriateness of the services authorized on the IFSP and considers revision(s) of the Individualized Family Support Plan as needed and agreed upon by the Individualized Family Support Plan Team. At a minimum, the family, service coordinator and at least one other professional member of the team must attend. IDEA Part C refers to this review as an annual evaluation of the IFSP.	
Arena-Style Assessment	A planned observation process which typically involves a facilitator, who serves as the primary contact with the child and family during the assessment process; another team member who may serve as a coach to support the facilitator, provide cues for missed items, or reflect on what could be done to enhance the assessment; and may involve one or more observers who serve as

This approach allows team members to be involved in planning the assessment and observing the child in the assessment setting. The child interacts with just one adult rather than all members of the assessment team. Arena assessment allows for an interactive and integrated process across domains to get a holistic picture of the child.	
Articulation disorder	A disorder characterized by the inaccurate production of sounds past the age at which correct production should occur.	
Assessment	The ongoing multidisciplinary procedures used by appropriate qualified personnel throughout the period of a child's eligibility to identify the child's unique strengths and needs and the services appropriate to meet those needs. An initial assessment refers to the assessment of the child and the family assessment conducted prior to the child's first IFSP meeting.	34 CFR §303.321 34 CFR§303.321 (a)(1)(ii)(1)
Assistive Technology Device	Any item, piece of equipment, or product system, whether acquired commercially off the shelf, modified, or customized, that is used to increase, maintain, or improve the functional capabilities of children with disabilities. The term does not include a medical device that is surgically implanted, including a cochlear implant, or the optimization (e.g., mapping), maintenance, or replacement of that device.	34 CFR§303.13(d)(1)
Assistive Technology Service	A service that directly assists a child with a disability in the selection, acquisition, or use of an assistive technology device including: A. The evaluation of the needs of a child with a disability, including a functional evaluation of the child in the child's customary environment. (Assistive Technology Evaluation Code ASTE, Augmentative Communication Evaluation Code AGCM)	34 CFR§303.13(d)(1)

Frequency	Frequency means how often or the number of days or sessions that a service will be provided, whether the service is provided on an individual or group basis. Frequency is stated in specific and measurable terms.	34 CFR §303.344(2)(i)
Fundraising	The process of soliciting and gathering voluntary contributions of money or other resources by requesting donations from individuals, businesses, charitable foundations, or governmental agencies.	
Health Flexible Spending Arrangement (FSA)	A health FSA allows employees to be reimbursed for medical expenses. FSAs are usually funded through voluntary salary reduction agreements with an individual's employer. No employment or federal income taxes are deducted from the contribution. The employer may also contribute. Health FSAs are employer-established benefit plans. These may be offered in conjunction with other employer-provided benefits. Employers have complete flexibility to offer various combinations of benefits in designing their plan. An individual does not have to be covered under any other health care plan to participate. Self-employed persons are not eligible for an FSA.	
Health Reimbursement Arrangement (HRA)	A health HRA must be funded solely by an employer. The contribution cannot be paid through a voluntary salary reduction agreement on the part of an employee. Employees are reimbursed tax free for qualified medical expenses up to a maximum dollar amount for a coverage period. An HRA may be offered with other health plans, including FSAs.	
Health Savings Account (HSA)	A health savings account is a tax-exempt trust or custodial account set up with a qualified HSA trustee to pay or reimburse certain medical

Individualized Family Support Plan (IFSP) Team	A group consisting of the family, the service coordinator, and at least two (2) professionals from two different disciplines who have been or are currently involved in the assessment or provision of services to the child. A childcare provider, home visitor, healthcare provider, and others providing services to the child and family are considered a member of the IFSP team and will be involved at the level the family desires. In addition, the team can add specialists as appropriate, to address the individualized needs of infants and toddlers served. The IFSP Team works with the family to assess the functional status of the child, the priorities, concerns and resources of the child and family, develop the initial Individualized Family Support Plan, assist in the implementation and review of progress toward achievement of identified outcomes, makes modifications to the IFSP when appropriate, and assists in developing transition plans when appropriate.	
Individuals with Disabilities Education Act (IDEA), Part B	A federal program that requires states to provide free appropriate public education in the least restrictive environment to students with disabilities from age three through twenty-one. Eligibility criteria are mandated through federal and state regulations, and services are supported with public funds. Also see Pre-kindergarten Program for Children with Disabilities.	
Individuals with Disabilities Education Act (IDEA), Part C	A federal program that states participate in voluntarily, that requires states to provide a statewide, community based, comprehensive, coordinated, family-focused, multidisciplinary, interagency program of early intervention services for infants and toddlers, birth to age three, with established conditions or developmental delays and their families.	34 CFR §303.1

The ITDS attends to all areas of early childhood development and understands the ways in which children integrate skills across domains. In addition, the ITDS works in a leadership role to assess, plan, provide, coordinate and evaluate early intervention strategies and provides support to minimize or reduce the impact of the child's delay or disability.	
Informed Clinical Opinion	The use of both quantitative and qualitative information that has been gathered about a child to assist in making a determination regarding the child's developmental status. Informed clinical opinion makes use of multiple sources of information, such as parent input, medical records, and other information that has been gathered about a child. Informed clinical opinion is always the consensus of the multidisciplinary team, and not the judgment of only one member.	
Initial Contact	The initial contact (most often a telephone call) is to occur within 5 calendar days of the referral. This is the first time an LES representative makes contact with the family to inform them that a referral has been received and advise them of next steps in the process.	
Intensity	The number of days or sessions that a service will be provided (frequency) and whether the service is provided on an individual or group basis. Intensity is stated in specific and measurable terms.	34 CFR §303.344 (d)(2)(i)
Interagency Agreement	A written document, which outlines roles and responsibilities of collaborative, interagency community groups that have the charge and authority to make decisions and define mandates regarding policies and procedures for infants, young children, and their families.

Placement	Entails the service setting and location.	
Plan of Care (POC)	A comprehensive and individualized written plan for implementation of Early Intervention Services and Therapy Services for an eligible child and the child's family enrolled in Early Steps.	
Point of Service Plan (POS)	In a POS plan, insured members may choose, at the point of service, whether to receive care from a physician within the plan's network or to go out of the network for services. The POS plan provides less coverage for health care expenses provided outside the network than for expenses incurred within the network. Also, the POS plan will usually require insured members to pay deductibles and coinsurance costs for medical care received out of network.	
Preferred Provider Organizations (PPOs)	PPOs offer a provider network to meet the health care needs of insured individuals. A traditional insurance carrier provides the health benefits. An insurer contracts with a group of health care providers to control the cost of providing benefits to insured individuals. These providers charge lower-than-usual fees because they require prompt payment and serve a greater number of patients. Insured individuals usually choose who will provide their health care, but pay less in coinsurance with a preferred provider than with a non-preferred provider.	
Prekindergarten Program for Children with Disabilities	The Prekindergarten Program for Children with Disabilities (the preschool component of Part B in Florida), is provided by the local school district to meet the child's needs for specially designed instruction and related services, ages three through five. Eligibility for special education is based on criteria in State Board of Education rules.	20 U.S.C. §1419
Premature	An infant born prior to 37 weeks gestation.	
Primary Service Provider (PSP)	The identified professional on the IFSP team that works with the child/family/primary caregivers on a regular basis and with other members of the team providing services directly, through consultation and/or joint visits.

Primary Service Provider (PSP) Approach	A team based family-centered approach that utilizes a capacity building method to intervene with infants and toddlers with disabilities or developmental delays. A lead provider works with other IFSP team members for the provision of direct services, co-visits or consultations, as appropriate, to meet identified outcomes.	Policy Handbook 6.2.1
Private Insurance	As discussed in these policy and guidance documents, private insurance refers to health coverage that can be issued to individuals, to employees of an employer offering health coverage, or to individuals that are members of association groups. Some health coverage in Florida is provided by self insured funds, not regulated by the State of Florida. Although there are other forms of health insurance, the three main categories of health insurance are: A. Policies that offer comprehensive or “major medical” coverage; B. Policies that provide managed care services [Preferred Provider Organizations (PPOs); Health Maintenance Organizations (HMOs); Point of Service plans (POS); Provider Service Network (PSN)]. – C. Policies that provide limited benefits. D. In addition to traditional health coverage or managed care plans, some families may access programs designed to give individuals tax advantages to offset health care costs such as a health savings account (HSA), medical savings account (MSA), health flexible spending arrangement (FSA), or health reimbursement arrangement (HRA).	
Progress Monitoring	A systematic approach to observing or checking a child’s progress and evaluating the effectiveness of intervention strategies. In progress monitoring, a child’s current levels of functioning and measurable goals or outcomes are determined. Progress toward specific skills is then measured on a regular basis (e.g., weekly or monthly). Progress monitoring generates useful data for determining whether intervention strategies need

Provider Service Network (PSN)	In this type of plan there is a network established or organized and operated by a health care provider or group of affiliated health care providers.	
Psychological Services	Includes: A. Administering psychological and developmental tests and other assessment procedures; B. Interpreting assessment results; C. Obtaining, integrating, and interpreting information about child behavior, and child and family conditions related to learning, mental health, and development; and D. Planning and managing a program of psychological services, including psychological counseling for children and parents, family counseling, consultation on child development, parent training, and education programs.	34 CFR§303.13(d)(10)
Public Agency	Includes the lead agency (Florida Department of Health, Children’ Medical Services), and any other political subdivision of the state that is responsible for providing early intervention services to children eligible under Part C of the IDEA. This may include agencies receiving funds under Part C of the IDEA as well as agencies that are involved in the state's Early Steps system or carry out a function required under IDEA, Part C, but do not directly receive IDEA, Part C funds.	
Public Awareness and Education	Activities that focus on the early identification of children who are eligible for Early Steps and include the preparation and dissemination by the lead agency to all primary referral sources, especially hospitals and physicians, of materials for parents on the availability of early intervention services.

Referral to Preschool Special Education	In Florida, referral to preschool special education is a separate and distinct process and should occur as outlined in the transition plan in the child’s IFSP.	
Respite	Appropriate short-term, episodic care which is provided due to the planned or emergency absence of a family member or primary caregiver. Respite is provided to meet a unique, temporary need. The purpose of respite services is to minimize stress that families and caregivers experience from addressing all the needs related to having a child with a disability or an emergency need of the caregiver. Respite is an early intervention service if it is identified on the IFSP as necessary to enable the family or caregiver to successfully meet the developmental outcomes for their child.
